

Everybody Needs A Little Help

[Shannon Noll](#)

You've always made it on your own
It's all in your control
Everything on a roll till now
Never a problem you couldn't face
Two steps ahead of the race
Everything fell into place till now, till now
'Cause everybody needs a little help sometimes
'Cause everybody needs a little help sometimes
'Cause everybody needs a little help
We're in this together
And I'll never let you down
I was always there
But you never looked around till now
'Cause everybody needs a little help sometimes
'Cause everybody needs a little help sometimes
'Cause everybody needs a little help sometimes
We're only human
Nobody's perfect
You just got to realize it
'Cause everybody needs a little help sometimes
'Cause everybody needs a little help sometimes
'Cause everybody needs a little help sometimes
'Cause everybody needs a little help sometimes
'Cause everybody needs a little help sometimes
'Cause everybody needs a little help sometimes
