

# Off The Ground

## Frameshift

[Music: LaBrie/Pauly]

[Lyrics: Cash/Pauly/Guadagnoli] Gimme skin behind my legs and arms

And see me glide

Just 'cause it's not soaring

Doesn't mean it can't be flight 10 feet from tree to tree

Is moving to efficiency

Half a wing is everything

If it's all that you need Gimme wings I wanna fly

Into the air I wanna rise Getting off the ground

Used to be so easy

You just had to earn your wings

Getting off the ground

Defying gravity

It is everybody's dream Living on cloud eight

Still waiting for my nine

Nesting in this moment

Waiting in line - Give me time Wind currents always keep me lifted

If I can feel it

The abnormality of flying

Is best explained by watching

Avionic aspirations

Following fowl play

Structures of steel and strut

The Wright way through the day Gimme wings I wanna fly

Into the air I wanna rise Getting off the ground

Used to be so easy

You just had to earn your wings

Getting off the ground

Defying gravity

It is everybody's dream Living on cloud eight

Still waiting for my nine

Nesting in this moment

Waiting in line - Give me time Getting off the ground

Used to be so easy

You just had to earn your wings

Getting off the ground

Defying gravity

It is everybody's dream Living on cloud eight

Still waiting for my nine

Nesting in this moment  
Waiting in line - Give me time
