Let's Start With Forever

Color Me Badd

Baby, you never knowIt's hard to say sometimes where a love will lead
It's a mystery
You take a chance, it's in the hands of faith
If we'll make it, sugarTime alone will show us what will be
Until we're sure about it
We don't have to rush into anything, babyWhy don't we just start with forever and take it from there?
If you got the time, baby I've got a lifetime to share
Why don't we spend some time together? Let's start with foreverI understand, I understand, you don't know me well
But if it's meant to be, then only time will tell
I only know that when I'm in your arms
I wanna stay there alwaysI would like to spend my life with you
If you're not sure about it
We don't have to rush into anything, babyWhy don't we just start with forever and take it from there?
If you got the time, baby I've got a lifetime to share
Why don't we spend some time together? Let's start with foreverOh, it's gonna take atleast a lifetime to know what's gonna be
So why don't you share a lifetime with me?
I believe that we can make it together, I feel no doubt
Let's spend forever just finding outTime alone will show us what we'll be
If you're not sure about it
We don't have to rush into anything, baby, no, noWhy don't we just start with forever and take it from there?
If you've got the time, baby I've got a lifetime to shareStart with forever, start with forever, start with forever
If the feeling's right, now why don't we spend some time together?
Start with forever, let's start with forever, forever and ever
Forever and ever, forever and ever, forever and ever
