

# Live Life Loud

Hawk Nelson

Someone throw your hands up  
If you wanna take a chance then  
You gotta sing a little louder  
Let's wake this crowd upSomeone throw your hands up  
If you wanna take a chance then  
You gotta sing a little louder  
Let's wake this crowd upI got a hankering for something special  
Tonight's the night it becomes official  
Don't stop the rock, hold both your hands up  
Sh-sh-show these people how to shake things upI'm not sitting down 'til I'm older  
And I'm not shuttin' up 'til it's over  
Raise your hands and shout if you're with me  
Once we start, it won't make a differenceIf you wanna live life loud, throw your hands up  
If you wanna scream and shout, let me hear you  
Takin' all the fakers out if you're with me  
Everybody work it, just keep livingI started figuring with good intentions  
Listen up now, give me your attention  
Don't make a sound if you don't believe me  
You won't wake up, you'll just keep livingI'm not sitting down 'til I'm older  
And I'm not shutting up 'til it's over  
Raise your hands and shout if you're with me  
Once we start, it won't make a differenceIf you wanna live life loud, throw your hands up  
If you wanna scream and shout, let me hear you  
Taking all the fakers out if you're with me  
Everybody work it, just keep livingEvery time that I close my eyes  
I catch a glimpse of the west coast sunrise  
And I can tell you, you're just as beautifulSomeone throw your hands up  
If you wanna take a chance then  
You gotta sing a little louder  
Let's wake this crowd upSomeone throw your hands up  
If you wanna take a chance then  
You gotta sing a little louder  
Let's wake this crowd upIf you wanna live life loud, throw your hands up  
If you wanna scream and shout, let me hear you  
Takin' all the fakers out if you're with me  
Everybody work it, just keep livingJust keep living
