

Neverland

[Dave Hollister](#)

Can you feel it girl? The feelin' that we feel now
Wish we could seal it in a bottle with a kiss now
And keep it runnin' for for ever, never break down
Keep our heads in the clouds, our heads in the clouds
Yeah, we feelin' like we floatin', but feelin' larger
So much bigger than the ocean
Baby, tonight I feel like you and me been chosen
To take our place in the stars, where fairy tales are
Oh, baby, can you Can you, can you feel the magic in the air?
Hold my heart as closely as you can
Don't let another
So take, baby take, take me to Neverland Suspended in the moment, give time a break so baby we can take it
slowly
Just you and the grove is all that I need to hold me
Livin' life on the floor, with nowhere to go
Can you Can you, can you feel the magic in the air?
Hold my heart as closely as you can
Don't let another
So take, baby take, take me to Neverland Can you, can you feel the magic in the air?
Hold my heart as closely as you can
Don't let another
So take, baby take, take me to Neverland Oh, we gotta keep the fire goin' (this thing we got could light the
midnight stand)
So let it make you feel alive, just stay here by my side
Never ever be ? and this dream will never die Can you, can you feel the magic in the air?
Hold my heart as closely as you can
Don't let another
So take, baby take, take me to Neverland Can you, can you feel the magic in the air?
Hold my heart as closely as you can
Don't let another
So take, baby take, take me to Neverland
