

Blame It on the Moon

[Katie Melua](#)

Gonna blame it on the moon
Didn't want to fall in love again so soon I was fine, feeling strong
Didn't want to fall in love with anyone Now that it's gone too far to call for a halt
I'll blame it on the moon, 'cause it's not my fault
I didn't think that this would happen so soon
So I'll blame it on the moon I was happy to be free
Didn't think I'd give myself so easily Guilty feelings in the night
As I wonder is it wrong to feel so right Now that it's gone too far to call for a halt
I'll blame it on the moon, 'cause it's not my fault
I didn't think that this would happen so soon
So I'll blame it on the moon Now that it's gone too far to call for a halt
I'll blame it on the moon, 'cause it's not my fault
I didn't think that this would happen so soon
So I'll blame it on the moon
So I'll blame it on the moon
