Sleep All Day - Rock the Night

Pyogenesis

I can't believe all the things you wanna say
I wanna live my life in my own special wayI wanna sleep all day, today's the day
I wanna rock the night, tonight's the night
I wanna sleep all dayYou think you're right just because you're up to date
Can't sleep at night, just because I am awakeI wanna sleep all day, today's the day
I wanna rock the night, tonight's the night
I wanna sleep all daySleep all dayYou think you're right just because you're up to date
Can't sleep at night, just because I am awakeOut of sight, out of mind, out of life, out of time
Out of in, out of out, I can't scream, I can't shout
I can't run, I can't hide, out of sight, out of mind
Out my way, I can't stayI wanna sleep all day, today's the day
I wanna rock the night, tonight's the night
I wanna sleep all day, today's the day
I wanna rock the night, tonight's the night
I wanna sleep all day
