

# In Love With the Girl

## Luke Bryan

It feels like I woke up one morning  
And it all changed without warning  
I don't know how our paths crossed  
    But all I know is I've been lost  
    Now it's hard to think  
That we were ever strangersWas it the wine or the moonlight glow  
    Or the way we were dancing on that old dirt road  
    Was it the sweet song she was singing  
    Or the way it all happened without even thinking  
    I've been on the edge I've been on the brink  
    But I don't think I've ever been this far  
So yes I, whoa yes I, yes I'm in love with the girlI talk about being caught off guard  
    Talk about an old boy falling hard  
    Think about a few weeks flying by  
    And talk about losing track of time  
Now I'm counting every second until I see herWas it the wine or the moonlight glow  
    Or the way we were dancing on that old dirt road  
    Was it the sweet song she was singing  
    Or the way it all happened without even thinking  
    I've been on the edge I've been on the brink  
    But I don't think I've ever been this far  
So yes I, whoa yes I, yes I'm in love with the girlI was cool with hanging around  
    Now I got plans bigger than this town  
    Saying things I ain't never said  
    And being with her ever chance I get  
    Heard the old man say son when you know  
    Hold on tight and don't let go  
So yes I, whoa yes I, yes I'm in love with the girl
