

# Just One

## Better Than a Thousand

Advisory - the following lyrics contain explicit language:

I know it's the substance that really counts, but we're into number  
we judge by amount. I know it the good, not just the plenty and with  
all our abundance we end up empty. We deserve cake but we've settled for crumbs,  
but I know one is better than a 1000? Taught how to purchase we consume by the pound but open us up  
there's not much to be found.  
It could simply imbibe a one sentence  
of truth it's outweigh all the shit we drank up in our youth.
