Red Dress

[Robert Plant](#)

Walk around my life
Keep your money in your hand
Look out where you're heading mama
Don't go running blind
Shine lights and strut it out
Keep your ear right to the ground
Watch out now for the strange cats
When the strange cats come around
Mmm pretty little girl with a red dress on
Pretty little girl shakin' down
Keep your eyes wide open
Hold your head up high
You are not a stranger here
So much changes inside
[Incomprehensible]She would lend a helping hand
Do not turn your back on the lady
When the lady comes around
Mmm pretty little girl with a red dress on
Pretty little girl shakin' down
Now, now, now, now some would say that love is blind
I blame it on the moon
People say that love's unkind
They find it out of tune
Mama, mama, mama
Let's keep on dancing through
Baby, baby, baby
I'm dancing through for you
Pretty little girl with a red dress on
Pretty, pretty, pretty little girl shakin' down
Dancin' down main street
If it's safe to the stroll
You have time to look around
Saw a day in the hole
No one cares about the fool
Worth the fine of gold
His only chance to plan
When Satan buys his soul
Mmm pretty little girl with a red dress on
Pretty little girl shakin' down

Pretty little, pretty little, pretty little girl
Pretty little, pretty little, pretty little girl
Pretty little, pretty little, pretty little girl
Pretty little, pretty little, pretty little girl
Ooh pretty little girl
Mamamamama pretty little pretty little girl
