

Ever

The Azoic

You make that dance look so new
And I'm on a face like you've never seen
I'm yours tonight
So come on Light up the stage
So we can all take off anywhere
We'll never come back ever You wear that cast so cool
And I'm on a face like you've never seen
Before around
So come on Light up the stage
So we can all take off anywhere
We'll never come back ever Right on the stage
You picture all of us everywhere
We'll never come back ever
