Love Triangle

Snuff Box

Said she wanna take me
On some bizarre love triangle
And she want to know
Is there something that I can't handle?
Said she wanna take me
On some bizarre love triangle
And she want to know
Is there something that I can't handle?
She wanna roll, she wanna play
She want it all she said it
She wanna go hard, go all the way
Back in my car, she's all up in my ear
Saying, oh, I got a friend
Who wanna a ride?
She can do anything you like
So you decide what's on your mind
Said she wanna take me
On some bizarre love triangle
And she want to know
Is there something that I can't handle?
Said she wanna take me
On some bizarre love triangle
And she want to know
Is there something that I can't handle?
Shorty's a pro, she knows the game
She wants to star, all up in a movie
She wanna be directing me

Just for a night, she moves out of camera
Shorty here we go, we on the set
It's going down, she's in them stilettos
She lacing me, I'm serving her
And watching her friend
Said she wanna take me
On some bizarre love triangle
And she want to know
Is there something that I can't handle?
Said she wanna take me
On some bizarre love triangle

And she want to know
Is there something that I can't handle?
She got my Alabaman going up
And now she got the track blowing up
She got my Alabaman going up
And now she got the track blowing up
Said she wanna take me
On some bizarre love triangle
And she want to know
Is there something that I can't handle?
Said she wanna take me
On some bizarre love triangle
And she want to know
Is there something that I can't handle?
