

Four Becomes One

Hawthorne Heights

And you will live on
Our hearts will beat stronger
As we remain as one
We will last just a little while longer

And as we pull ourselves together
We can't help, but be torn apart
And we will always have each other
Just like it was from the start

When five becomes four
And four becomes one
You're not just passing on
You're passing on all the fun we had
You made us laugh
We only cried, but once
You made us laugh
In photographs, on display for everyone

Now the time has come now
And we must figure out
Driving north or going south
Growing up or falling down

And as we pull ourselves together
We can't help, but be torn apart
And we will always have each other
Just like it was from the start

When five becomes four
And four becomes one
You're not just passing on
You're passing on all the fun we had
You made us laugh
We only cried, but once
You made us laugh
In photographs, on display for everyone

[x2]

And the time has come now

And we must figure out
Driving north or going south
Growing up or falling down
