

# Anxiety (Get Nervous)

Pat Benatar

Get nervous, get nervous  
Get nervous, get nervous, get nervous  
Get nervous, get nervous, get nervous  
Get nervous, get nervous I feel a little shaky, I can't control my nerves  
I know you think I'm freakin', but can't you feel the curves?  
I swear to you this feeling, it scares me half to death  
It gathers in my throat and it gathers up my breath Anxiety got me on the run  
Anxiety yeah, I just need someone  
Anxiety can't get nothin' done  
Anxiety spoils all the fun I'm picking up the telephone, there's no one I can call  
I need somebody fast, can't find no sleep at all  
I wish I could relax, I just can't stop my mind  
I wish I could collapse but my body's not that kind Anxiety got me on the run  
Anxiety yeah, I just need someone  
Anxiety can't get nothin' done  
Anxiety spoils all the fun Can't you hear my heartbeat, hear the way it sounds?  
Can't you hear my heartbeat, you hear the way it pounds?  
Just give me somethin' to slow it down, yeah Sometimes in the city, sometimes in my car  
I pound on the windows like a bee inside a jar Anxiety got me on the run  
Anxiety yeah, I just need someone  
Anxiety can't get nothin' done  
Anxiety spoils all the fun Anxiety got me on the run  
Anxiety yeah, I just need someone  
Anxiety can't get nothin' done  
Anxiety spoils all the fun Get nervous, get nervous  
Get nervous, get nervous  
Get nervous, get nervous
