

Grocery Store

La Veda

i woke up this morning
i took a look around
couldnt see your face
you were nowhere to be found
cuz i got used to doin all the thngs we used to do
when you did em too me

sometimes missing things
when your doin other things
at times it's just too much
with the trouble it brings
when your love diminished
didn't know that we finished
i swear that we were runnin like a machine

but when you see me gettin greedy
goin crazy at the grocery store
like i'm returning my love
so i can restock some more
when my purchase hits the surface and i'm paying by kissing
won't miss the love i used to have,just keep on insisting

you can find them ...
find them at the grocery store

goin aisle to aisle
checking off all the things
that ive been wanting from love
and the all the joy that it brings
but i got used to getting all things that you could give
when i got them for free

just like a shopping list
i'm checking off of it
all of the things i need
that wont make my heart sick

cuz when our love diminished
can't believe that we finished
i found the wrench thats
jamming up my machine
