

# May Queen

## Poor Rich Ones

Don't be fooled by him, he's fine  
Rock and roll Ken doll, he's a national end-all  
He's an off and on friend of mine  
Where have I been? Got any what?  
Who have I seen? I spy a May Queen  
You were miles above me, girls in your arms  
The changing of her Majesty's guard is truly amazing

Got any what?  
Disease, hashish, a mind?  
Do I have any what?  
Where have I been? Got any what?  
Who have I seen? I spy a May Queen  
You were miles above me, girls in your arms  
You could've planted a farm, all of them hayseeds
