

Running Wild

Tindersticks

Running wild through my mind
That I can't sleep tonight
Running wild through my mind
That I can't sleep tonight
Like a child, like a child
I have no place to hide
Running wild
Is there no ending for the
Running wild through my mind
That I can't sleep tonight
And all the while when I can't sleep tonight
I can see you
Running wild through my mind
That I can't sleep tonight
And all the while while I can't sleep tonight
I can see you
Running wild
Running wild
Running wild
Running wild
The underside, the underside of my mind
There's a cry that I can't even reach out [unverified]
There's a fire, do you feel that too?
Running wild through my mind
That I can't sleep tonight
And all the while while I can't sleep tonight
I can see you
Running wild
Running wild
Running wild
Running wild
