

Do You Know (I go crazy)

Angel City

Time stands still in my heart
I don't know where you are
Longing for what I denied
Can we just turn it around tonight? And do you know without you I just go crazy?
And do you know that all I think about is the way you are?
And do you know that only you can save me, baby?
From going through this life all alone And do you know without you I just go crazy?
And do you know that all I think about is the way you are?
And do you know that only you can save me, baby?
From going through this life all alone When will missing you stop
Seems we lost before the start
Holding back on what was inside
Can we just let it all out tonight? And do you know?
And do you know?
And do you know?
And do you know? And do you know without you I just go crazy?
And do you know that all I think about is the way you are?
And do you know that only you can save me, baby?
From going through this life all alone And do you know without you I just go crazy?
And do you know that all I think about is the way you are?
And do you know that only you can save me, baby?
From going through this life all alone Do you know?
Don't look back on yesterday
I believe we can find a way
Don't let hopes and dreams fade
Don't hesitate it's not too late I go crazy
I go crazy And do you know?
And do you know?
And do you know?
And do you know? And do you know without you I just go crazy?
And do you know that all I think about is the way you are?
And do you know that only you can save me, baby?
From going through this life all alone And do you know without you I just go crazy?
And do you know that all I think about is the way you are?
And do you know that only you can save me, baby?
From going through this life all alone
