Talk to the Body

Magazine

You have put me in the pictures
In the pictures in which
My head is swimmingYou were made for life
You're lost to the world
Very transparent, very selfish
Beautiful, powerful careless women, watch itAnd my body screams, "Yes"
And my mind just keeps its peace
I clam up, I calm downMy body screams, "Yes"
And my mind just keeps its peace
I clam up, calm downWe embrace during the journey
Such a short ride in a borrowed car
The time is ripe for getting things right
At a very reminiscent temperature, watch itAnd my body screams, "Yes"
And my mind just keeps its peace
I clam up, calm downAnd my body screams, "Yes"
And my mind just keeps its peace
I clam up, calm downClam up, calm down
Clam up, calm down
Clam up, calm down
Clam up, calm downClam up, calm down
Clam up, calm down
Clam up, calm down
Clam up, calm downClam up
