

Like a Book

[Kosheen](#)

I see you looking my direction
I repay a compliment
Something different in your eyes
You always seem so confident back there Though there's been a lot of change
Seems to best, and stay the same
I remember you, my friend
Before you changed and went away from me Believe me
If I could, baby, I would
You know it was all good
If I could
Maybe I'd give you my word
You know me
You read me like a book I offer you the reassurance
Though it seems irrelevant
Can you see the darkening circles
Around my eyes penetrating your soul Let's take back to better days
When everything was possible
All this dirty water weighs
My heavy heart is longing for you Believe me
If I could, baby, I would
You know it was all good
If I could
Maybe I'd give you my word
You know me
You read me like a book
