

Driving Down The Darkness

Devildriver

Beat-Down through worlds
This time it's crossed the line
Beware of what's behind
Wolves coming quick to kill you
Currents running strong
Think you're right,wrong
Look,it's long gone
Look,it's long goneStick to yourself
Hold your own
Stay strong in the sight of insanityDriving down the darkness
Stricken by the madness
Praying for forgiveness
While you play God(With my life)Me against them,no stopping
Time for action,no talking
If it rears its ugly head
I'll cut it clean off
Change this,change that
Change this,change that
My ears are burning from all the talking
Time for fuckers to start walkingStick to yourself
Hold your own
Stay strong in the sight of insanityDriving down the darkness
Stricken by the madness
Praying for forgiveness
While you play God(With my life)I'll pray for you
Your prayers come true
That I don't come for youDriving down the darkness
Stricken by the madness
Praying for forgiveness
While you play God(With my life)
