

In It's Own Little Way

Dottie West

In its own little way my heart keeps missing you
In its own little way my heart keeps wanting you
 I'm hoping that you'll come back to stay
 My heart keeps loving you in its own little way
 If my heart could forget then I know I could met
Myself I'm someone new but my heart wants only you
 In its own little way my heart keeps dreaming to
 In its own little way my heart keeps crying to
 Still hoping that you'll come back to stay
 My heart keeps loving you in its own little way
 My heart keeps loving you in its own little way
