

Under One Sky

The Tenors

Every moment of my life
Is racing through my mind
I can finally take it in All the days I fell behind
When I could not see the light
I was searching deep within But every step became a mile
And now i have arrived Under One Sky
Where dreams come to life
Under One Sky
Our worlds will unite
It takes a lifetime
For a chance to shine
Under One Sky tonight
There are heroes all around
Who never let you down
They will always be inside your heart It takes a city of dreamers
To help you get this far Every step became a mile
And now you have arrived Under One Sky
Where dreams come to life
Under One Sky
Our worlds will unite
It takes a lifetime
For a chance to shine
Under One Sky tonight We're under One Sky
Under Oner Sky
Where dreams come to life
It takes a lifetime
For a chance to shine Under One Sky
Where dreams come to life
Under One Sky
Our worlds will unite
It takes a lifetime
For a chance to shine
Under One Sky tonight
