

Drifting Ballet

Norton

DRIFTING BALLETT

If you keep it in your head
A little closer, then you will see
I will spell it out for you
Weâ€™re the science in creation
Weâ€™ve been doing this for

Fun times in Avalon
Thereâ€™s no time to waste
This is where I want to go
Hiding from you
Weâ€™ll go out for more

Fun times in Avalon
Thereâ€™s no time to waste
Into a place where I might be lost
I can see you through a part
Where I might be on my way

Iâ€™m on my way
I need to go and see
Iâ€™ve been hiding
Looking for symmetry

I had forgotten
I should wait and see
But now Iâ€™ve found it
Drifting in out of this place

Fun times in Avalon
Thereâ€™s no time to waste
This is where I want to go
Hiding from you
Weâ€™ll go out for more

Fun times in Avalon
Thereâ€™s no time to waste
Into a place where I might be lost

I can see it through a part
Where I might be on my way

Make your way and go
Into a place where I might be lost
Into a place where I might be me

Fun times in Avalon
There's no time to waste
Into a place where I might be lost
I can see it through a part
Where I might be on my way
