Save Me

Darius

Is there in any love in your heart?
Is there any blood in your veins?
If there any feeling in you
To give away?
The ground beneath my feet on wheels
I wander if you know how
That feels
Baby where are my nerves of steel
When I need them?

Save me from this madness baby
Save me from the shame
Save me from this feeling baby
Wipe these damn tears away

I got my bones beneath my skin
That easily break
I got feelings that I just can't escape
I got dreams that mostly
Keep me awake

Save me from this madness baby
Save me from the shame
Save me from this feeling baby
Wipe these damn tears away

You got my soul in your solar system
But you keep my heart out of hand
As if I'm only human
As if I never missed you
As if I never should

Save me from this madness baby
Save me from the shame
Save me from this feeling baby
Wipe these damn tears away
