

# Why Should I?

## infinite bisous

I don't want to fall asleep and why should I  
You already know that I'm dreaming  
I don't see a reason not to close your eyes  
You won't turn my life and ???

Maybe when you see me it would open your eyes  
And one day ??? you've been dancing  
I don't want to fall asleep and why should I  
You already know that we're dreaming
