

Heartbreak

Gavin DeGraw

And I
It's like night oh oh
That's the time I will recall And I
Won't smile oh oh
Just because I turn you on You wasted, ticking ticking time
We didn't make it but we tried
And baby that's okay
Oh oh oh oh oh And now you're talking bout your heart
Cold in the air because you're lonely
In the middle of the night
Oh oh oh oh oh [Chorus]
Heartbreak isn't what it used to be
Now it's a bedtime story, not a tragedy
I got a silver lining on a cloud like that
You let it rain so it won't come back Heartbreak uuuu Drink
When you drink oh oh
Maybe you should hide your phone At least
Try to think oh oh
Instead of rushing out right before you're passing out You wasted, ticking ticking time
We didn't make it but we tried
And baby that's okay
Oh oh oh oh oh And now you're talking bout your heart
Cold in the air because you're lonely
In the middle of the night
Oh oh oh oh oh [Chorus]
Heartbreak isn't what it used to be
Now it's a bedtime story, not a tragedy
I got a silver lining on a cloud like that
You let it rain so it won't come back There's no file good to read
Girl give you fantasy
Your magic carpet ride
Let go of tears that you cried [Chorus]
Heartbreak isn't what it used to be
Now it's a bedtime story, not a tragedy
I got a silver lining on a cloud like that
You let it rain so it won't come back Heartbreak uuuu
Heartbreak uuuu
Heartbreak uuuu
Heartbreak uuuu
