

Erased

Sunk Loto

Drowning, feels like I'm drowning in the piss of the world
Suffocated, we suffocating in the mess we've made
Drowning nowFly up so high then you fall
Crashing, burning down
Thoughtlessly and selfishlyExperimenting dangerously
The human race erased itself into a void
Thoughtlessly and selfishly
The human race erased itself into a voidChoking, feels like I'm choking on the shit of the world
Suffocated, we're suffocating in the mess we've made
Choking nowFly up so high then you fall
Crashing, burning, we will drown
In this mess we've made nowWe will drown in this mess we've made
I can swim now
