Could This Be Love

Stan Bush

Could this be love?
If I give you my heart, for the rest of my life
Would it feel the way it feels, like it does with you tonight
Girl, there's something goin' on, do you feel it like I do?
Never happened before, like it's happening with you
Oh, when I hold you, I don't wanna let go
Tell me I'm not goin' crazy, girl, there's just one thing I gotta know
Chorus:
Could this be love, tell me I'm not dreamin'
It's the first time in my life, I felt this way, oh
Could this be love, I don't wanna stop believin'
This feelin' in my heart, could it be love, could it be love
I would give you my world, if you promise to stay
I don't wanna take your freedom, don't wanna blow it all away
When I look into your eyes, I can see just who I am
And it's taken me a lifetime, now I finally understand
Oh, when I touch you, in the middle of the night
Tell me, girl, if it is not real, then how can anything just feel so right
(chorus)
(Solo)
Oh, when I hold you, I don't wanna let go
Tell me I'm not goin' crazy, girl, there's just one thing I gotta know
(chorus)
(Could this be love) I wanna believe it
Could it be love (could this be love) yeah yeah
(Could this be love, could this be love)...
