

# Munich Air Disaster 1958

## Morrissey

We love them  
We mourn for them  
Unlucky boys of red I wish I'd gone down  
Gone down with them  
To where mother nature  
Makes their bed We miss them  
Every night we kiss them  
Their faces fixed in our heads I wish I'd gone down  
Gone down with them  
To where mother nature  
Makes their bed They can't hurt you  
Their style will never desert you  
Because they're all safely dead I wish I'd gone down  
Gone down with them  
To where mother nature  
Makes their bed
