

# Blondes Have More Fun

Tiga

I'm  
I wish I could go with you  
Everybody says it, I know that doesn't make it less true  
I want to go where you go  
I  
I'm left out in the cold, fully clothed while you do your best  
To get undressedI  
I think this is a real thing  
I wish I knew your real name  
What's your address  
I  
I'm left out in the cold  
Fully clothed, while you do your best  
To get undressedYou might be rich, but I have all the fun  
You're lying to yourself while I lie in the sun  
Hold your broken dreams close to your broken heart  
It's nothing new to me 'cause I've been broke right from the start  
I soared from the sky like an angel in the dark  
You're trying to catch my wings you think you're someone that you're not  
The water's crystal clear I walk while your make-up runs  
The last words that you hear  
Blondes have more funYou might be rich, but I have all the fun  
You're lying to yourself while I lie in the sun  
Hold your broken dreams close to your broken heart  
It's nothing new to me 'cause I've been broke right from the start  
I soared from the sky like an angel in the dark  
You're trying to catch my wings you think you're someone that you're not  
The water's crystal clear I walk while your make-up runs  
The last words that you hear  
Blondes have more fun
