

Angel Standing By

[Jewel](#)

All through the night,
I'll be standing over you
And all through the night,
I'll be standing over you And through the bad dreams,
I'll be right there baby
Telling you everything is gonna be alright And when you cry,
I'll be there baby
Telling you you're never nothing
Less than beautiful
So don't you worry,
I'm your angel standing by.
