

# In The Rain

Estelle

Ha, this remind me of summer  
Im talking bout an English summer  
You know where it rains all night long  
Yeah, but this reminds me of you We dont need to be just a memory  
If you wanna flow Ill walk away It was last love, not the first time for you to notice me  
Cos you had yours and I had mine it still wouldnt find to see  
If it makes sense, I would make sense when you put your lips on me  
And the feeling, get to feel this like this was meant to be Nah, but apparently you only get one chance  
And I, this is something I may want to last  
But we both got other things we got to do  
And then that dont stop this girl from feeling you Loving in the rain til the sun comes out all night long  
Loving in the rain til the sun comes out all night long  
Loving in the rain til the sun comes out all night long We dont need to be just a memory  
If you wanna flow Ill walk away But this is nothing but the real that I speak to you  
Feel how I feel for you, nothings quite real but you  
Im changing up my expectations  
This ain't changing my person, oh its just relations And uh, I tried to tell me that a couple times  
But you seemed to get into my heart and write a rhyme  
And you, a future with a capital F  
And I wonder how I got into this beautiful mess Now I, now this is something I would never do  
But you color my heart in different shades of you  
I guess we, we just gotta see where this will go  
I know if youre willing Im gonna wait for you  
To go with me, for to you to go with me Loving in the rain til the sun comes out all night long  
Loving in the rain til the sun comes out all night long  
Loving in the rain til the sun comes out all night long We dont need to be just a memory  
If you wanna flow Ill walk away This could take a whole lotta time  
'Cos I feel your love in oh so many ways with you  
We could be together in the rain  
You and me together, okay you and me together  
Oh baby Im gonna wait to go out in the rain Loving in the rain til the sun comes out all night long  
Loving in the rain til the sun comes out all night long  
Loving in the rain til the sun comes out all night long We dont need to be just a memory  
If you wanna flow Ill walk away Loving in the rain til the sun comes out all night long  
Loving in the rain til the sun comes out all night long  
Loving in the rain til the sun comes out all night long We dont need to be just a memory  
If you wanna flow Ill walk away Loving in the rain, leave your girl  
All night long, Ill leave my man  
Loving in the rain, we dont need no friends

All night long, just hold my hand  
Loving in the rain til the sun comes out all night long We dont need to be, just a memory  
If you wanna go Ill walk away
