

# Stay

## Vacationer

Want you to stay...  
Wherever your heart would go.  
Want you to make it  
About what your life is for.  
Want you to wake!  
Open wide and the light'll come out.  
Don't over think it.  
??? right on time and ??? that if you look around Want you to taste!  
Summer winds has been gustin around.  
I want you shakin  
Those habits just in time  
??? that if you look around. Want you to stay  
Wherever your heart would go.  
Want you to make it  
About what your life is for.  
Want you to stay! Want you to wake!  
Open wide and the love will come out.  
Might over state it.  
??? right on time  
??? that if you look around. Want you to taste!  
Autumn winds has been gustin around.  
I want you shakin  
Those habits just in time  
??? that if you look around. Want you to stay  
Wherever your heart would go.  
Want you to make it  
About what your life is for.  
Want you to stay  
Wherever your heart would go.  
Want you to make it  
About what your life is for.
