

Boys

Sky Ferreira

I knew it was love Boys, they're dime a dozen
Boys they doin' nothing
For me any longer
Not be getting stronger Boys a lot of women love you
But boys they just make me mad
All the little things that you do
Ain't gonna make me sad Then I saw one lookin'
At me from afar Then I knew it was you all along
I knew it was you all along
Suddenly I knew there was love
Then I knew it was you all along You put my faith back in boys
Back in Boys I see you smilin'
Boys'll never take the blame
All the rotten things that you do
Always getting in my way Then I saw one lookin'
At me from afar Then I knew it was you all along
I knew it was you all along
Suddenly I knew there was love
Then I knew it was you all along You put my faith back in boys
Back in Cross my heart and hope to die
Stick a needle in my eye
Cross my heart and hope to die
Stick a needle in my eye Cross my heart and hope to die
Stick a needle in my eye
Then I knew it was you all along
I knew it was you along
Suddenly I knew there was love You put my faith back in boys
Back in
Back in boys
Back in
Back in boys
Back in You put my faith back in boys
Back in
Back in boys
Back in
Back in boys
Back in boys
