

# Burn 'em All

## Anti-Nowhere League

..Run get the fire brigade...  
There's panic in the city  
It's something that we feel  
We're shooting up on everything...  
Cus everything is real  
Why should we build houses,  
Dirty bastards need no homes!  
Why should we build anything... Everything has gone...  
..Run get the fire brigade...  
Burn 'em all... those pervert preachers  
Queer teachers  
Burn 'em all... boring politicians,  
Born again christians  
Burn 'em all... pushers, bores, judges and whores  
Burn, burn them all....  
I think it's time for changes  
I think it' time to run  
There's something in the distance...  
I feel it's just begun  
Why should we climb mountains...  
Those bastards don't belong  
Why should we climb anything... Everything has gone  
..Run get the fire brigade...  
Burn 'em all... those pervert preachers  
Queer teachers  
Burn 'em all... boring politicians,  
Born again christians  
Burn 'em all... pushers, bores, judges and whores  
Burn, burn them all....  
There's panic in the city,  
It's something that we feel  
We're shooting up on everything...  
Cus everything is real  
Why should we build houses,  
Dirty bastards need no homes!  
Why should we build anything... Everything has gone...  
..Run get the fire brigade...  
Burn 'em all... those pervert preachers  
Queer teachers

Burn 'em all... boring politicians,  
    Born again christians  
    Burn 'em all... pushers, bores, judges and whores  
    Burn, burn them all....
