I Will Never Die

Turbonegro

Let's go
AlrightHey, punkettes look at me
I master eternity
Gonna make you scream out loud
Get the fuck off of my cloudAlright, I'm in complete control
Now heads are gonna roll
I see you turning bald
I'll never grow oldI will never die
I will never die
I will never dieCome join me for a ride
There's no use to make reply
You can't kill what does not live
I'll make you suffer by my willAlright, I'm in complete control
Now heads are gonna roll
I see you turning bald
I'll never grow oldI will never die
I will never die
I will never dieI'm a total mastermind
Don't wanna hear you whine
Brain of gold A heart of stone
And you're a pussy Long, long goneC'mon, I'm in complete control
Now heads are gonna roll
I see you turning bald
I'll never grow oldI will never die
I will never die
I will never dieI will never die
I will never die
I will never dieSwallow broken glass
TNT up my ass
Steal a mobster's cash
Smoke twenty tons of hashI will never die
