Livin' In My DreamworldÂ

Taco

Livin' in my dreamworld, memories of yesteryear
Visions of Garbo, that old piano
Those golden years are right here
I love 'emLivin' in my dreamworld, don't you dare wake me up
I'm hooked on Charleston, I sing a long song
Don't let 'em disappearCome fly with me, there's room within my fantasy
In dreams, there'll be a shooting star for you and me
I'm not nuts now honey, so take a chance
We'll dance on the Milky Way
You'll love itLivin' in a dreamworld, moonlight serenade
Two lovers spending time, never ending
Honeymoon escapade
You gatherLivin' in my dreamworld, twilight twa nu mua
Conquer the dance floor, till we can't take more
Na per des ear un wahCome fly with me, there's room within my fantasy
In dreams, there'll be a shooting star for you and me
I'm not nuts so honey, come take your chance
Romancing, dancing here
It's magicLivin' in a dreamworld, programmed on way back then
You'll be my Harlow, I'm Valentino
Tear up the town like them
They'll love usLivin' in my dreamworld, destined for the past
Don't like the eighties, livin' on maybes
Big brother's watching you
Don't trust himLiving in my dreamworld
Where did things go wrong
Computerizing and analyzing
Destroying my favorite song
