

I Can't Describe (The Way I Feel) [feat. T.I.]

Jennifer Hudson

I can't describe (the way I feel, the way I feel)
Oh what a high (the way I feel, the way I feel)
I just can't put in words, what I feel for you (the way I feel, the way I feel)
It feels so good it hurts, what you do (the way I feel, the way I feel) I feel like I'm in love
That is nice, but not good enough
I feel like saying something that's for us, that defines what's in our hearts
Dancing and we're playin' around, you know you got me
And then the feeling comes raining down all over my body
It tingles here, tingles there, ooh it tingles everywhere
That's why I never found the words to describe it I can't describe (the way I feel, the way I feel)
Oh what a high (the way I feel, the way I feel)
I just can't put in words, what I feel for you (the way I feel, the way I feel)
It feels so good it hurts, what you do (the way I feel, the way I feel) This feels right, just staying up
And it don't describe when it's not
I can feel my heart beat thumping, from your touch
In my life you are my love Dancing and we're playin' around, you know you got me
And then the feeling comes raining down all over my body
It tingles here, tingles there, ooh it tingles everywhere
That's why I never found the words to describe it I can't describe (the way I feel, the way I feel)
Oh what a high (the way I feel, the way I feel)
I just can't put in words, what I feel for you (the way I feel, the way I feel)
It feels so good it hurts, what you do (the way I feel, the way I feel) In the morning, hopefully you'll tell me why
we're both yawning
But right now, think about it later, boy just love me now Wait a minute now
Come on shawty, you already know 'bout me
In the summer Barcelona, Monaco I be
Kickin' flave on the gold coast, doing the most
We poppin' gold bottles, twenty thousand toes
In Ibiza, you and me can take a walk on the moon
My watch got it showing in the middle of June
And we can kick it on the water when it's hot on the streets
On the yacht, somewhere south of Paris (gettin' money)
I'll let you get the black card if you play alright
Make you shine on sight, any the day or night
I could never be a bad as they say I be
But I could be good if the wood be good
In the drop top, park downtown, get in to it
Let you have it like a true dope boy should
The neighbors all hear you when I'm doing something to you

'Cause we wake 'em all up, we could tare the mall up I can't describe (the way I feel, the way I feel)
Oh what a high (the way I feel, the way I feel)
I just can't put in words, what I feel for you (the way I feel, the way I feel)
It feels so good it hurts, what you do (the way I feel, the way I feel) Dancing and we're playin' around, you
know you got me
And then the feeling comes raining down all over my body
It tingles here, tingles there, ooh it tingles everywhere
That's why I never found the words to describe it I can't describe (the way I feel, the way I feel)
Oh what a high (the way I feel, the way I feel)
I just can't put in words, what I feel for you (the way I feel, the way I feel)
It feels so good it hurts, what you do (the way I feel, the way I feel) I can't describe (the way I feel, the way I
feel)
Oh what a high (the way I feel, the way I feel)
