# Hiding In Corners

## The Hush Now

You spin a carousel of alibis
Washed in shadows
Never happy
Never satisfied
You just rise and fallSofty whisper
then you galvanize
Reeling backwards
They cant see you
They cant feel you
They dont need you
They dont realizeIm finding you hiding in corners
Can hardly believe what Im seeing
Youre out of control
Lying your face off too
Do you hear the words coming out of your mouthHarbored ghosts that bleed inside your mind
Shake and shiver
They cant see you
They cant feel you
They dont need you
They dont realizeIm finding you crying in corners
Can hardly believe what Im seeing
Youre out of control
Lying your face off too
Do you hear the words coming out of your mouthIm finding you crying in corners
Can hardly believe what Im hearing
Youre out of control
Keep lying your face off too
Do you hear the words coming out of your mouthIm losing you hiding in corners
Can hardly believe what youre saying
Youre speaking in tongues
Dying inside alone
please baby try to get out of your head
