

Isolation

Into Eternity

Inner scars that never heal
Another day in this solitude
This resistance turned prison cell Your life is slowly fading
Your life is built upon a lie
Existence now forgotten
Memories of isolation
Isolation The anxiety's convincing
You'll end your tribulations
Panic has taken over The fear sinks in a crushing hold
Keep the outside from closing in
Slowly dying Your life is slowly fading
Your life is built upon a lie
Existence now forgotten
Memories of isolation
Isolation The fear sinks in a crushing hold
Keep the outside from closing in
Slowly dying Your life is slowly fading
Your life is built upon a lie
Existence now forgotten
Memories of isolation
Isolation
The anxiety's convincing
You'll end your tribulations
Panic has taken over
