

Killuminatti

Babyfather

Another one
Put it back for another one
We're back in
YeahShottas
Everybody knows about shottas
The feds over here are called coppers
But every nigga here cockblockers
But all you people just don't get it
That all my niggas are copacetic
Seems I'm the only one who's got to stress it
We're the only ones who's gotta back it
But you're the only one who's gonna lack it
