

Remember

Zach Deputy

come on honey i got the feeling in my bones you get me dancing
you got the fire in your step with every breath you got me panting
true it is you can forget alot the time comes to connect the dots
and answer a few questions why is it that
all i need is you you helped me stand up tall i need is you say
darling remember our toes were in the sand darling take me there again babe
darling remember where we going to be you and me sweet baby
I need to know right now little momma how you make me feel this way
I need to know right now do you remember the days
back and forth it seems we go, I'm wondering who will win this tug of rope, game
I know your just as hard headed, as me don't forget it,
for love ill never let it go, how is it that
all i need is you, you helped me stand up tall i need is you
darling remember our toes were in the sand darling take me there again darlin
darling remember where we going to be you and me sweet baby now now now now
darling remember our toes were in the sand darling take me there again darlin
darling remember where we going to be you and me sweet baby whoooooooooo
