

# Empty Memories

## After Forever

Here, here in this heart it's cold  
Cold as stone  
Must welcome these memories  
As shallow as my eyes have slowly become  
Hearts, frail heart left broken  
Cold and known for its bitter agony  
Here are the memories as empty as my life has slowly become  
Sting, crush and bite in my soul  
My heart bleeds  
Times changed forever that night  
Leaving only empty memories  
Empty memories won't heal the pain  
We know only sorrow  
There's no future in tomorrow  
All our hopes were buried too young  
For the years that should have followed  
We know only hatred  
There's no future in our anguish  
For all hope is buried with life  
And reprisal will be ours  
It's empty  
We're empty  
They're empty memories  
Here, here in this heart  
Cold as stone, for no feelings there to warm  
It is as empty as our dreams and hopes  
Now our future is gone  
It stings and bites in my soul  
My heart bleeds  
Times changed forever that night  
Leaving only empty memories  
Time was changed forever that night  
Leaving me, no, no, no, alone with empty memories  
Empty memories  
Empty memories
