

Superlove

Lenny Kravitz

I want you
All of you
Can we break through
And start a new I want your superlove
I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
We both know The way to go
Let's take a chance
It's our last dance I want your superlove
I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
