

This Is the Life

Wendy & Lisa

This is the life
Everyone has to be somewhere
I am here
Testing a dream
The pressure of dreams is the killer
Of dreams
And it only gets harder This is the life
This is the life
This is my life Time is the monster
All of us fight the same monster
To win
I scream when I breathe
Fearing that worry will trigger
All my fears And it only gets harder (How did I get so serious?) This is the life
This is the life
This is the life
This is my life Everyone has to do something
I am here
Doing what I do best But this is the life
This is the life
This is the life
