

# Watch Me Shine

## Fozzy

Like a rat on a sinking ship  
It strains to save its skin  
Trying hard to crack the whip  
My body reeks with sin On the TV the preacher's preach  
About a better world  
I had to laugh when I read the speech  
And take it for what it's worth And if you think it's fixed  
Then you're just a fool  
You can't change the world  
When you can't even find the truth I don't want to live without her  
Even though at times I've lost my mind Hear the sound of the crying kid  
Count how many tears  
Hear the laugh of the drunken dad  
Count how many beers Into the schools the teachers teach  
About the sins of the past  
Blaming others for the problems here  
They can kiss my ass And if you think it's fixed  
Then you're just a fool  
You can't change the world  
When you can't even find the truth I don't want to live without her  
Even though at times I've lost my mind  
I will never give up on her  
Just give me one more chance  
And watch me shine
