

Twice

Mojo Magnet

Love swung my way
Once again it seemed to change its mind
Begged you to stay
Damn the reasons that you couldn't find Here alone, I see you took everything
And left me nothing
WhyChorus:
So I don't mind
I've been through this before
Guess I must have done something wrong (yeah) It must be nice not to make the same mistakes twice
Must be nice not to make the same mistakes Me and my big ideas
I really wish I knew where I went wrong
All the wasted years
It seems the packing didn't take you long Here alone, now the mem'ries only make me sad
I feel so lonely
WhyChorus:
So I don't mind
I've been through this before
Guess I must have done something wrong (yeah) It must be nice not to make the same mistakes twice
It must be nice not to make the same mistakes [Musical Interlude] Chorus:
So I don't mind
I've been through this before
Guess I must have done something wrong (yeah) It must be nice not to make the same mistakes twice
It must be nice not to make the same mistakes
It must be nice not to make the same mistakes,
Nice not to make the same mistakes
Twice I always make the same mistakes
