

# Golden Eyes

## Wild Couch

Golden eyes are easily seen  
When the density moves you somewhere between  
And all the neighbors are praying for rain from above  
When you're down in the cityI want to hold you on the neighbor's deck  
In the blue TV screen light  
So take the train stay and in tonight  
I know you don't need me  
And I know how I long  
To think you mightGolden eyes are easily seen  
When the density moves you somewhere between  
And all the neighbors are praying for rain from above  
When you're down in the countryWanna take you up to Alamere  
The sunset and sardines  
Fake campsite in an evergreen  
Sleeping on a beach  
With a California queenGolden eyes are easily seen  
When the density moves you somewhere between  
And all the neighbors are praying for rain from above  
When you're down in the cityLooking for love  
Looking for love  
Looking for love  
Looking for love
