

Underdog (Live from Wembley Arena)

You Me At Six

And I know some things you don't
It comes and goes like the strength in your bones, whoa
So keep your mind at a rest
I'll never let the two of us be friends, does it hurt? Underdog, just look at the mess you've made
It's such a shame, a shame, we had to find out this way You must have the must have
Moment in your hands and it's sad
Take a bet, this season, I'm gonna change
Just not face to face, it ain't broke, so don't fix it Underdog, just look at the mess you've made
It's such a shame, a shame, we had to find out this way
Revenge loves company, three makes it a crowd
So watch your mouth, sit this one out And I'm down, down but definitely not out
Yeah, why did you call me again?
I bet, I bet we don't make it 'Cause, I never say goodbye
To my friends in very high places
They're only making bets with themselves, selves
They're very, very selfish
Well, keep your mind in the air Underdog, just look at the mess you've made
It's such a shame, a shame, we had to find out this way
Revenge loves company, three makes it a crowd
So watch your mouth, sit this one out
